The new series brings the latest insights and discussion from industry experts and guests from leading apps and games businesses. Hear their stories and thoughts on some big topics such as app-based learning and pivoting in times of crisis, raising awareness of climate change in gaming, product inclusivity, building quality apps with Firebase, how to go from PC to mobile gaming, and much more.

Android Developers

If your app supports Android 3.1 (API level 12) or lower, you need to use the legacy size qualifiers in addition to the smallest/available width qualifiers from above. From the example above, if you want a two pane layout on larger devices you need to use the "large" configuration qualifier to support version 3.1 and lower.
