Britney Spears makes success look simple. As Brit will tell you, though, success is hard work -- you need talent, belief in yourself, and someone else who believes in you. For Britney, that person has always been her mother, Lynne Spears, who is not just Britney's mama but also her best friend.

The teenaged singer and her mother share family photographs and stories about Britney's life and career, their relationship, and growing up in show business.

Britney Spears and her mother Lynne share the inspiring story of how one girl from Louisiana became a music phenomenon. Although the book contains intimate details of Britney's life and her rise to stardom, it is also a tale of mothers and daughters, dealing with success, coping with failure and understanding self-image - all the questions that beset every young woman.

Now a National Bestseller! In this intimate memoir, actress and musician Jamie Lynn Spears opens up for the first time, telling her unfiltered story on her own terms. You ' ve read the headlines, but you don ' t know Jamie Lynn Spears. The world first met Jamie Lynn as a child star, when it was her job to perform, both on set and for the press. She spent years escaping into different characters on All That and Zoey 101. But as she grew up, faced a teen pregnancy, raised her daughter on her own, pursued a career, and learned to stand on her own two feet, the real Jamie Lynn started to take center stage – a raw, blemished, and imperfect woman, standing in her own power. Despite growing up in one of America's most tabloid-famous families, Jamie Lynn has never told her story in her own words. In Things I Should Have Said, she talks frankly about the highs and lows, sharing what it was like traveling the world as a kid, how she moved into acting and performing herself, what life as a child star took from her, and the life-changing reality of becoming a teen mom. She talks about how she finally found love and how the mistakes she has made have taught her more than anything else. She also shares vulnerably about how the ATV accident that nearly took her daughter's life brought her back to her faith and caused her to reevaluate and redirect her life. Frank, courageous, and inspiring, Things I Should Have Said is a portrait of a wife, momma, sister, daughter, actress, and musician doing the best she could to show up for herself and teach her daughters to have the courage to love every part of themselves, too.

Speaking out for the first time, Spears offers a rarely glimpsed view of herself and her family—including celebrity daughters Britney and Jamie Lynn, son Bryan, and ex-husband Jamie. Candid and touching, the stories show the heart of a mother who struggles to keep faith through life's twists and turns.

Profile of the hot young singing sensation. Backstage Pass.
