Functional Safety with ISO 26262 □ Principles and Practice Certified Functional Safety Expert Professional

The Certified Functional Safety Expert (CFSE) program helps individuals gain the knowledge and skills to become recognized experts in the application & design of safety systems. CFSE / CFSP - Certified Functional Safety Expert

CFSE / CFSP - Certified Functional Safety Expert

Functional Safety Professional. TÜV SÜD originally developed the first functional safety certification program (formally CFSE - Certified Functional Safety Expert) in 1999. Since 1999 over 1000 professionals in the field of functional safety have been certified by TÜV SÜD. The original certification program was meant for professionals in the process industry.

The CFSE (Certified Functional Safety Expert) concept was originally developed by engineers from TÜV SÜD and exida with the support of other international safety experts to ensure that personnel performing SIS lifecycle activities are competent as required by the IEC 61508, 61511, and 62061 standards. The program is the now administered by exida.

CFSE / CFSP - Certified Functional Safety Expert

The Certified Functional Safety Expert (CFSE) program was set up initially by two functional safety certification companies back in the early 2000s. The stated intent was "to ensure that personnel performing SIS life-cycle activities are competent as required by the IEC 61508, 61511, and 62061 standards." .
