All the animals are running away, but what are they afraid of? Find out in this action-packed book that will have all little children wanting to turn the pages and join in. It's simple, it's fun, it's thought provoking, and the surprise ending brings it right back to the beginning - to be enjoyed all over again! Graphic designer and illustrator Edward Gibbs has always sought to communicate meaningful ideas in the simplest way. With a seemingly effortless touch, in this book and its companion *The Acorn*, he introduces educational themes and concepts (food chains, fear, ecosystems) in a visual, fun, and satisfying romp for the very young.

Your Bee-attitude starts with Bee-lieving. According to the laws of aerodynamics, bees should not be able to fly. Their wings are too small and their bodies are too fat to get off the ground. But they fly. If you are willing to bee-lieve that you can achieve and if you are willing to work hard, then you too can "fly." This is the Bee-attitude. Bea Grace Curri uses a clever list of alphabetical encouragement for young readers to develop a "you can do it" attitude. She tells remarkable stories of people who by all appearances "couldn't," and yet who "did" anyway...with great success. If you want

your children to turn those stumbling blocks into stepping stones, Bee Attitude is for you and for them. It's bee-autiful. Bea Grace Curri has a wealth of experience working with children as a religious educator and youth minister for the Dioceses of Syracuse, New York, and Orlando, Florida. She has been married to her husband, John for thirty-eight years and has two sons and six grandchildren. Bea approaches life with enthusiasm.

A fun introduction to why the world needs bees. Pedro, Nick, Yulee, Sally and Martin are buzzing with excitement today! The five friends are visiting Martin's neighbor, Mr. Cardinal. He keeps beehives in his backyard, and he's offered to show the friends how honeybees live. Mr. Cardinal explains how bees feed and pollinate, what happens inside their colony, how they build their hives and even why they like to dance! He also describes why some bees are in trouble and what people can do to help. And the day's perfect sweet ending? Honey, of course! Kids will delight in the message: it's best to "bee a friend" to bees everywhere!
