MLTC Consumer Guides About the Guides. Choosing a managed long-term care plan that meets your health care needs is an important decision. These guides will help you make that decision. They have information about the quality of care offered by the different plans, and people's opinions about the care and services the plans provide. There are other things you need to think about too.

The most comprehensive consumer health text available, Consumer Health: A Guide to Intelligent Decisions offers a panoramic view of the health marketplace. You'll learn how to sharpen your critical consumer skills so you can distinguish valid health claims from those that are fraudulent or misleading. By offering science-based facts and guidelines, Consumer Health provides the tools you need to make smart decisions about health-care products and services for yourself and your family.

The Medical Library Association Guide to Developing Consumer Health Collections guides both library graduate school students and seasoned librarians from academic, health sciences, and public libraries, to develop, maintain, nurture, and advertise consumer health collections. This authoritative guide from the respected Medical Library Association covers all that is involved in developing a new consumer health library including: Conducting community needs assessments and forging community partnerships Concerns about physical space, computers, and materials Funding, budgeting, and staffing Privacy and confidentiality concerns Publicity and advertising This book guides both graduate library school students and seasoned librarians from all types of libraries--academic, health center, hospital, public, and school--to develop, maintain and nurture not only consumer health collections, but also community partnerships and outreach programs. Examples of librarians' innovative and creative consumer health initiatives are included. Chapters include all that is involved in developing a consumer health

collection including conducting community needs assessments; concerns about physical space, computers, and materials; budgeting, licensing, and staffing; privacy and confidentiality concerns; and community partnership and outreach.

Consumer Health: Making Informed Decisions is a concise, current text with the most up-to-date information about health care reform and insurance. It is devoted to the most important issues relative to consumer health issues, including advertising, dietary supplements, herbal remedies, weight management, and medications. There are in-depth analyses of the American health care system, insurance options, and consumer protection. The text also takes a critical look at complementary and alternative therapies. Throughout the text, there are guidelines for making decisions that can benefit the individual. A comprehensive list of learning objectives precede each chapter and a list of study questions conclude each chapter. The questions are designed to help the student summarize the major points of the chapter, prepare for exams, and critically analyze the material contained in the chapters. Instructor Resources: PowerPoint Presentations

Patrons seeking medical information are often trying to gain control following an upsetting diagnosis--working with them can be rewarding and difficult. In this practical, readable guide, consumer health reference expert Michele Spatz, gives you an understanding of the psychology of those seeking medical information and the skills necessary to respond usefully and appropriately. Spatz outlines the most common inquiries and behaviors of health information searchers and the most useful go-to resources. Sample librarian-patron interactions in every chapter give you useful strategies and scripts. Dozens of templates and forms and tips on everything from setting up the reference desk to encourage confidential inquiries to using body language to signal your availability will help you create a welcoming, empowering atmosphere in your library. Chapters on ethics and potential legal issues guide you through the nitty-gritty of what constitutes practicing medicine without a license, confidentiality requirements, and more. Sections on email, virtual, and telephone reference will help you establish clear guidelines, and creative tips on marketing to healthcare providers will help you forge valuable new partnerships. A section on self-care offers strategies for dealing with job-induced stress. Every information professional who helps patrons with health inquiries will want a copy of this useful, inspiring book.

Every day, in households across the country, people engage in behavior to improve their current health, recover from disease and injury, or cope with chronic, debilitating conditions. Innovative computer and information systems may help these people manage health concerns, monitor important indicators of their health, and communicate with their formal and informal caregivers. Human factors is an engineering science dedicated to understanding and improving the way people use technology and other things in the environment. Consumer Health Information Technology in the Home introduces designers and developers to the practical realities and complexities of managing health at home. It provides guidance and human factors design considerations that will help designers and developers create consumer health IT applications that are useful resources to achieve better health.
