From Hell, Hull and Halifax, May The Good Lord Deliver Us. The famous line originates in the Beggars ' Litany, an old saying popular in the 17th century. It is best-known from a poem by John Taylor, who visited Hull in 1622 and wrote a description of the town in verse. However, it may already have been well known in Taylor ' s time.

have agreed to using a bounty system for dangerous criminals using advanced magic or advanced technology. People too powerful for the cops to deal with. Magical criminals, thugs and bounty hunters, in the future we revert to what worked in the past. if you find out you are hunted by Brownstone, we suggest you turn yourself in. It will save you a monumental ass-kicking. Brownstone likes his life simple, but Life is about to throw him a wicked curveball. NOTE: This book contains cursing. Perhaps humorous cursing, but cursing nevertheless. If this offends you, I don't suggest reading this book.

I ' m Caith Morningstar: bar owner, leather wearer, shoe worshipper, werewolf, Orlando ' s resident ass kicker and... Satan ' s niece. For the love of all that is unholy, I really thought the demons of the world were smarter than to screw with me. But they ' re doing it. Again. Catatonic people are being found across the city, all of them members of a new cult. All the followers have to do is pray to their new goddess and all will be well... while she sucks the very life out of them. What makes it worse? The bitch involved my son in her schemes. Didn ' t she learn what happens when someone touches what ' s mine? I ' ll be sure to show her. Add in Uncle Luc ' s arrival with his still pregnant baby momma along with a request to keep her safe, and my life is just awesome. (Total sarcasm.) It isn ' t long before I realize the " goddess " wants to destroy the world, and her ticket to the top is through the baby in the mommy-to-be ' s belly. Now I ' m running, I ' m killing, I ' m saving the world, and I ' m... trying to hang on to my angelic mate, Sam. I ' m pretty sure I ' m going to fail at one of those. I just hope it ' s not Sam.

I ' m Caith Morningstar: bar owner, leather wearer, shoe worshipper, werewolf, Orlando ' s resident ass kicker and... Satan ' s niece. In the tween—between On High and Hell—I ' ve got three rules: order, secrecy, and if you can ' t manage that at least have some discretion. Wait, make that four: no one screws with me or my stuff.

Orlando—land of that famous mouse—is my home and people are either gonna get in line or get out. Except someone didn ' t get that memo. Now, I ' m gonna bust out my bat and smash some heads. I ' ve got zombies demolishing my home, vamps chasing me, and on top of the normal violence in my life, I ' m quickly falling for an angel. I can handle the blood, gore, and frustration, but can I deal with the pain of loving—possibly losing—the angel Samkiel? Probably not, but I ' m gonna try anyway.

----- This is Celia's first foray into urban fantasy as Lauren Creed. What's the difference between Celia's urban fantasy as Lauren and her rocking shifters? Well, the chicks are still sassy, still curvy, and pretty kick ass. But with urban fantasy, the world really DOES revolve around her and the ass kicking includes things like swords, knives and the occasional bomb. There's a guy hanging around somewhere who is totes hot, but he's there to look pretty, provide a little muscle, get down and dirty without a lifelong commitment. And he's hot. Did she mention hot? Basically: lotsa blood, lotsa gore, lotsa chick saving the world combined with a fanatical love of shoes and a totally bangin' ass. Hell's Chapel: The Orlando mouse's house is filled with demons and she's just the bitch to keep 'em in line.

The Fear of Hell is a provocative study of two of the

most powerful images in Christianity&—hell and the eucharist. Drawing upon the writings of Italian preachers and theologians of the Counter-Reformation, Piero Camporesi demonstrates the extraordinary power of the Baroque imagination to conjure up punishments, tortures, and the rewards of sin. In the first part of the book, Camporesi argues that hell was a very real part of everyday life during the sixteenth and seventeenth centuries. Preachers portrayed hell in images typical of common experience, comparing it to a great city, a hospital, a prison, a natural disaster, a rioting mob, or a feuding family. The horror lay in the extremes to which these familiar images could be taken. The city of hell was not an ordinary city, but a filthy, stinking, and overcrowded place, an underworld &"sewer&" overflowing with the refuse of decaying flesh and excrement&—shocking but not beyond human imagination. What was most disturbing about this grotesque imagery was the realization by the people of the day that the punishment of afterlife was an extension of their daily experience in a fallen world. Thus, according to Camporesi, the fear of hell had many manifestations over the centuries, aided by such powerful promoters as Gregory the Great and Dante, but ironically it was during the Counter-Reformation that hell's tie with the physical world became irrevocable, making its secularization during the Enlightenment ultimately easier. The eucharist, or host, the subject of the second part of the book, represented corporeal salvation for early modern Christians and was therefore closely linked with the imagery of hell, the place of perpetual corporeal destruction. As the bread of life, the host possessed many miraculous powers of healing and sustenance, which made it precious to

those in need. In fact, it was seen to be so precious to some that Camporesi suggests that there was a "clandestine consumption of the sacred unleavened bread, a network of dealers and sellers" and a "market of consumers." But to those who ate the host unworthily was the prospect of swift retribution. One wicked priest continued to celebrate the mass despite his sin, and as a result, "his tongue and half of his face became rotten, thus demonstrating, unwillingly, by the stench of his decaying face, how much the pestiferous smell of his contaminated heart was abominable to God." When received properly, however, the host was a source of health and life both in this world and in the world to come. Written with style and imagination, *The Fear of Hell* offers a vivid and scholarly examination of themes central to Christian culture, whose influence can still be found in our beliefs and customs today.

I ' m Caith Morningstar: bar owner, leather wearer, shoe worshipper, werewolf, Orlando ' s resident ass kicker and... Satan ' s niece. Orlando—land of that famous mouse—is on day three hundred sixty-two of my demon ban and life is... boring. Until a demon finds a way around my magical blockade with a new demonic drug. Now humans are getting high and disappearing while tweeners—magical beings that live in the land between On High and Hell—are grinding on my last, violent nerve. When my son is infected with the evil taint, I realize this demon has forgotten my rules: order, secrecy, discretion, and don ' t screw with me or my stuff. Bryony is mine. Orlando is mine. This dem ' s head? It ' s gonna be mine, too. But, as much as I want to deal with this alone, I can ' t. I have to face Samkiel—my fallen

angel mate I lost to evil. On High has given him back some of his angelic mojo and I need his purifying hand to cleanse human souls, his help tracking down the local dealer, and him at my side when we locate the dem determined to get his claws into the mouse ' s house. I lost Sam once and survived. The question now is whether I can survive losing both of the men I love most? Or rather, will the world survive?

This book examines the phenomenon of urban fear – the increasing anxiety over crime and violence in Western cities despite their high safety – with a view to developing a comprehensive, critical, exploratory theory of fear, space, and urban planning that unravels the paradoxes of their mutual relations. By focusing especially on the southern European cities of Palermo and Lisbon, the book also aims to expand upon recent studies on urban geopolitics, enriching them from the perspective of ordinary, as opposed to global, cities. Readers will find enlightening analysis of the ways in which urban fear is (re)produced, including by misinformative discourses on security and fear and the political construction of otherness as a means of exclusion. The spatialization of fear, e.g., through fortification, privatization, and fragmentation, is explored, and the ways in which urban planning is informed by and has in turn been shaping urban fear are investigated. A concluding chapter considers divergent potential futures and makes a call for action. The book will appeal to all with an interest in whether, and to what extent, the production of ‘ fearscapes ’ , the contemporary landscapes of fear, constitutes an emergent urban political economy.

Hell 's Kitchen is among Manhattan ' s most storied and studied neighborhoods. A working-class district situated next to the West Side ' s middle- and upper-class residential districts, it has long attracted the focus of artists and urban planners, writers and reformers. Now, Joseph Varga takes us on a tour of Hell ' s Kitchen with an eye toward what we usually take for granted: space, and, particularly, how urban spaces are produced, controlled, and contested by different class and political forces. Varga examines events and locations in a crucial period in the formation of the Hell ' s Kitchen neighborhood, the Progressive Era, and describes how reformers sought to shape the behavior and experiences of its inhabitants by manipulating the built environment. But those inhabitants had plans of their own, and thus ensued a struggle over the very spaces—public and private, commercial and personal—in which they lived. Varga insightfully considers the interactions between human actors, the built environment, and the natural landscape, and suggests how the production of and struggle over space influence what we think and how we live. In the process, he raises incisive questions about the meaning of community, citizenship, and democracy itself.

Although the city as a central entity did not simply disappear with the Fall of the Roman Empire, the development of urban space at least since the twelfth century played a major role in the history of medieval and early modern mentality within a social-economic and religious framework. Whereas some poets projected urban space as a new utopia, others simply reflected the new significance of the urban environment as a stage where their characters operate very successfully. As today, the premodern city was the locus where different social groups and classes got together, sometimes peacefully, sometimes in hostile terms. The historical development of the relationship between Christians and Jews, for instance, was deeply determined by the living conditions within a city. By the late Middle Ages, nobility and bourgeoisie began to intermingle within the urban space, which set the stage for dramatic and far-reaching changes in the social and economic make-up of society. Legal-historical aspects also find as much consideration as practical questions concerning water supply and sewer systems. Moreover, the early modern city within the Ottoman and Middle Eastern world likewise finds consideration. Finally, as some contributors observe, the urban space

provided considerable opportunities for women to carve out a niche for themselves in economic terms.

This book demonstrates how city literature addresses questions of possibility. In city literature, ideas of possibility emerge primarily through two perspectives: texts may focus on what is possible for cities, and they may present the urban environment as a site of possibility for individuals or communities. The volume combines reflections on urban possibility from a range of geographical and cultural contexts—in addition to the English-speaking world, individual chapters analyse possible cities and possible urban lives in Turkey, Israel, Finland, Germany, Russia and Sweden. Moreover, by engaging with issues such as city planning, mass housing, gentrification, informal settlements and translocal identities, the book shows imaginative literature at work outlining what possibility means in cities.
