Mindfulness-Based Eating Awareness Training began in the early 1980 ' s with a group of young women and the programme has now evolved into a full 12 sessions after many research studies. Development of the programme saw the addition of Forgiveness meditation – focusing on self-acceptance and forgiving others and Wisdom meditation – helping participants engage a higher/spiritual self.

~~Mindfulness-Based Eating Awareness Training: Treatment of ...~~

MB-EAT involves training in mindfulness meditation and guided mindfulness practices that are designed to address the core issues of BED: controlling responses to varying emotional states; making conscious food choices; developing an awareness of hunger and satiety cues; and cultivating self-acceptance. Evidence to date supports the value of MB-EAT in decreasing binge episodes, improving one's sense of self-control with regard to eating, and diminishing depressive symptoms.
