Nurses Reflective Diary for Revalidation From 2016 all nurses and midwives who practice in the UK will need to undergo a system of revalidation. One part of the revalidation process will be for nurses and midwives to contemplate five instances of their nursing practice that link to the nurses national code of practice. And, from that reflection, consider ways of improving their professional practice. Diary and Workbook for Nurses This workbook provides a framework to first describe the incident, then link the incident to the Code of Practice, and finally show how the incident could be improved further. After five reflections and for your next revalidation, you can ask your professional nurse supervisor to sign the workbook template, indicating they have seen and approved your reflective diary. This signed document is scanned or copied and inserted into your continuing professional development (CPD) portfolio. Never Search for Piece of Paper Again The workbook for reflection is designed for a revalidation's, which covers a period of over 10 years. Now nurses will be able to show their professionalism and development in one simple, easy to use, easy to keep and find diary and workbook. There is also references and website links for further advice; but the real beauty is that this nurse reflection diary is a stand alone document to keep with you for the next 12 years of your practice as a nurse or midwife.

Note to Readers: Publisher does not guarantee quality or access to any included digital components if book is purchased through a third-party seller. This innovative text delivers more than 40 evidence-based teaching strategies that educators can use to engage nursing students and enhance their learning in a variety of teaching environments. It provides a wealth of new teaching designs both novice and experienced faculty can use to inspire and motivate learners in the classroom through simulation, online, and in community or hospital settings. Strategies developed by leading clinical nursing and health educators characterize nursing education as a dynamic and highly specialized field that stems from meaningful interactions between learners and educators. For ease of comparison, each practical teaching strategy is organized in a consistent format to include student-centered competencies and nursing education accreditation standards. The text also provides a template and a step-by-step guide on how to customize the strategies to fit the needs of learners and educators. The designs include an emphasis on applications of technologically enhanced innovations in nursing education, interdisciplinary collaboration, and the use of the humanities and art. This text answers the ongoing call for interprofessional education necessary to prepare the next generation of expert nurses in the rapidly changing environment of healthcare. Key Features: Evidence-based research used in the development of each teaching strategy Groundbreaking practices in a variety of environments will challenge the discipline and spark additional innovations throughout nursing Each chapter provides optimal learning outcomes and teaching objectives, preparation resources, modules of implementation, methods to evaluate the effectiveness of each strategy, outlined limitations, and accreditation standards Instructor's Manual included

Are you prepared for revalidation? All nurses and midwives in the UK are required to complete the revalidation process every 3 years in order to renew their registration. This book explores key areas of revalidation such as adult learning and CPD, personal reflection and growth, and improving practice by obtaining and learning from practice-related feedback. This handy guide contains a wealth of tips and advice for all nurses and midwives to help to make the process more understandable and manageable. Key features: • Practical suggestions and examples for engaging in relevant continuing professional development (CPD) • Introduces methods to help complete the reflective accounts • Provides support to prepare for the reflective discussion and confirmation process • Features 'Time Out' boxes and activities throughout that can be used for reflection on practice and support personal development • Practical ideas for portfolio development Essential reading for all NMC registrants, regardless of practice setting, as well as student nurses and midwives who will need to undergo revalidation throughout their careers. Employers will also find this book helpful when supporting staff with revalidation. "I found this book very easy to read. It shows clearly how to incorporate revalidation into our practice and make it as stress-free as possible!" Myrna Melville, Registered Nurse, UK "The book is structured in an accessible way and is designed to really assist registrants through the revalidation process. I particularly like the frequent activities built in as the reader progresses through the chapters." Professor Ian Murray, Head of School of Nursing and Midwifery, Robert Gordon University, UK "This book is a first of its kind and as the title suggest it's a journey where the authors walks with the readers step by step to a successful revalidation destination. The authors are evidently well vast with this subject matter and had produced a book that is beautifully laid out, easy to read without being patronizing." Esther Kuria

Critical reflection, like all practice-based skills, can only be mastered by doing it. This practical user's guide takes the reader through a structured and coherent course in reflective practice, with frequent reflective writing exercises, discussion breaks and suggestions for further reading. With chapters on individual and group supervision, reflective writing, research and education, this book will be of interest to students and practitioners at all levels of nursing, midwifery, health visiting and social work.

Nursing Informatics and the Foundation of Knowledge, Fifth Edition is a foundational text for teaching nursing students the core concepts of knowledge management while providing an understanding of the technology tools and applications where a certain level of proficiency is required. A practical guide for understanding how to leverage modern technology, the text teaches students how to acquire, process and disseminate knowledge. Grounded in the Foundation of Knowledge Model, the authors leverage this framework throughout as an organizational structure by which to teach and learn nursing informatics. The Fifth Edition gives nurses the tools and knowledge they need to succeed in the information age. Each chapter has been carefully updated to reflect the most current advances in technology, healthcare and reimbursement services. The authors also highlight the timely and impactful contribution of informatics to quality improvement, interprofessional collaboration, and the pandemic response. Finally, a thought-provoking chapter ties all of the elements of informatics together and asks students to consider the future impact of technology on the patient care experience by examining care bots, cyborgs and artificial intelligence.

'Christopher Johns is an internationally recognised pioneer of reflective practice in nursing and health care.' – Nursing Standard Becoming a Reflective Practitioner provides a unique insight into reflective practice, exploring the value of using models of reflection, with particular reference to Christopher Johns' own model for structured reflection. Now in its fifth edition, this book has been completely revised and updated to include up-to-date literature and reflective extracts. Contemporary in approach, this definitive text contains a variety of rich and insightful reflective extracts that support the main issues being raised in each chapter, and challenges practitioners and students to question their own practice. Now with further scenarios and case studies included throughout, these extracts provide the reader with access to the experience of reflective representation helping to explicate the way in which reflective practice can inform the wider notion of professional practice. With an increase in professional registration requiring reflective evidence, this new edition of Becoming a Reflective Practitioner is an essential guide to all those using reflection in everyday clinical practice.

Nursing Informatics and the Foundation of Knowledge, Fourth Edition teaches nursing students the history of healthcare informatics, current issues, basic informatics concepts, and health information management applications. This comprehensive text includes the building blocks of informatics through complicated topics such as data mining, bioinformatics, and system development.
