The Sex Book: Amazon.co.uk: Godson, Suzi, Agace, Mel ...

The sex book was printed in 1971 so it's a little dated. It looks like a cross between a dictionary and encyclopedia with words and phrases which are defined typically just plain text but there are a number of small photographs and several large double page spreads throughout the large format card covered book. The photos are typical 70s artsy black-and-white and grainy. The definitions ...

COUPLES OFFERED £1,500 IN LOCKDOWN SEX EXPERIMENT. Couples are being offered £1,500 to be 'aphrodisiac testers' - as six in ten admit they are stuck in a sexual rut during lockdown.

Sex at Dawn: The Prehistoric Origins of Modern Sexuality

Ending compulsive sexual behavior is just the beginning. Drawing on personal and professional experience, psychotherapist Andrew Susskind examines issues such as shame, grief, narcissism, and codependency to demonstrate how people use out-of-control sexual behavior to cope with brokenheartedness and trauma. He offers strategies to cultivate sustainable sexual sobriety, sharing his own healing narrative, as well as those of others who've chosen to bare their truths. No one is ever too hurt or isolated to achieve reliable relationships and emotional intimacy. This is a guidebook for every person seeking long-term healing from sex addiction.

An essential exploration of why and how women's sexuality works—based on groundbreaking research and brain science—that will radically transform your sex life into one filled with confidence and joy. Researchers have spent the last decade trying to develop a “pink pill” for women to function like Viagra does for men. So where is it? Well, for reasons this book makes crystal clear, that pill will never be the answer—but as a result of the research that's gone into it, scientists in the last few years have learned more about how women's sexuality works than we ever thought possible, and Come as You Are explains it all. The first lesson in this essential, transformative book by Dr. Emily Nagoski is that every woman has her own unique sexuality, like a fingerprint, and that women vary more than men in our anatomy, our sexual response mechanisms, and the way our bodies respond to the sexual world. So we never need to judge ourselves based on others' experiences. Because women vary, and that's normal. Second lesson: sex happens in a context. And all the complications of everyday life influence the context surrounding a woman's arousal, desire, and orgasm. Cutting-edge research across multiple disciplines tells us that the most important factor for women in creating and sustaining a fulfilling sex life, is not what you do in bed or how you do it, but how you feel about it. Which means that stress, mood, trust, and body image are not peripheral factors in a woman's sexual wellbeing; they are central to it. Once you understand these factors, and how to influence them, you can create for yourself better sex and more profound pleasure than you ever thought possible. And Emily Nagoski can prove it.

The Sex BookA no-nonsense guide for teenagersCan a girl get pregnant during her period?How do you know if you're homosexual?Do guys ever fake an orgasm?When is a good time to lose your virginity?How do you protect yourself against HIV?The Sex Book is a no-holds-barred guide to the ins and outs of sex. Written in a handy A to Z format, it offers fast answers to crucial questions, dispelling old myths, while addressing all the complexities of sex in the 21st century. Whether you've already had sex or are just starting to think about it, whether you're a girl or a guy, The Sex Book covers all the issues, leaving nothing off-limits.

Sex at Dawn: The Prehistoric Origins of Modern Sexuality

This groundbreaking feminist classic dismantles the way we view rape in our culture and replaces it with a genuine understanding and respect for female sexual pleasure. In the original edition, feminist, political, and activist writers alike presented their ideas for a paradigm shift from the "No Means No" model--and the result was the groundbreaking shift to today's affirmative consent model ("Yes Means Yes," as coined by this book). With a timely new introduction, refreshed cover, and the timeless contributions of authors from Kate Harding to Jill Filipovic, Yes Means Yes brings to the table a dazzling variety of perspectives and experiences focused on the theory that educating all people to value female sexuality and pleasure leads to viewing women differently, and ending rape. Yes Means Yes has radical and far-reaching effects: from teaching men to treat women as collaborators and not conquests, encouraging men and women that women can enjoy sex instead of being shamed for it, and ultimately, that our children can inherit a world where rape is rare and swiftly punished.

Since Darwin's day, we've been told that sexual monogamy comes naturally to our species. Mainstream science—as well as religious and cultural institutions—has maintained that men and women evolved in families in which a man's possessions and protection were exchanged for a woman's fertility and fidelity. But this narrative is collapsing. Fewer and fewer couples are getting married, and divorce rates keep climbing as adultery and flagging libido drag down even seemingly solid marriages. How can reality be reconciled with the accepted narrative? It can't be, according to renegade thinkers Christopher Ryan and Cacilda Jethá. While debunking almost everything we "know" about sex, they offer a bold alternative explanation in this provocative and brilliant book. Ryan and Jethá's central contention is that human beings evolved in egalitarian groups that shared food, child care, and, often, sexual partners. Weaving together convergent, frequently overlooked evidence from anthropology, archaeology, primatology, anatomy, and psychosexuality, the authors show how far from human nature monogamy really is. Human beings everywhere and in every era have confronted the same familiar, intimate situations in surprisingly different ways. The authors expose the ancient roots of human sexuality while pointing toward a more optimistic future illuminated by our innate capacities for love, cooperation, and generosity. With intelligence, humor, and wonder, Ryan and Jethá show how our promiscuous past haunts our struggles over monogamy, sexual orientation, and family dynamics. They explore why long-term fidelity can be so difficult for so many; why sexual passion tends to fade even as love deepens; why many middle-aged men risk everything for transient affairs with younger women; why homosexuality persists in the face of standard evolutionary logic; and what the human body reveals about the prehistoric origins of modern sexuality. In the tradition of the best historical and scientific writing, Sex at Dawn unapologetically upends unwarranted assumptions and unfounded conclusions while offering a revolutionary understanding of why we live and love as we do.

Seeking love in an age obsessed with sex, a journalist chronicles her year without On the eve of her thirtieth birthday, Hephzibah Anderson glimpsed her college boyfriend going into a jewelry store with a smiling blonde—and in that moment realized it had been years since a man told her he loved her. This discovery led her to question a decade of emotionally frustrating relationships with commitment phobes. As she examined her past, she recognized that most of these relationships went off course at the precise moment sex was involved. Anderson decided it was time to spend a full year without sex to rediscover its meaning and purpose in her life. In this confessional account, Anderson shares the results of that year, narrating each month as she flirts, dates, and swoons but doesn't have sex. The results—her feelings about femininity, her body, and romance—are illuminating. Told with Elizabeth Gilbertesque candor, Chastened reveals much about our contradictory cultural attitudes towards sex and the ways intercourse has been used as a shortcut to deeper intimacies. An antidote to the growing genre of another-notch-in-the-bedpost memoirs, Chastened is a refreshing look at what's to be gained by going without.

From #1 New York Times Bestseller Vi Keeland, comes a new, sexy standalone novel. My relationship with Hunter Delucia started backwards. We met at a wedding—him sitting on the groom's side, me sitting on the bride's. Stealing glances at each other throughout the night, there was no denying an intense, mutual attraction. I caught the bouquet; he caught the garter. Hunter held me tightly while we danced and suggested we explore the chemistry sparking between us. His blunt, dirty mouth should've turned me off. But for some crazy reason, it had the opposite effect on me. We ended up back in my hotel room. The next morning, I headed home to New York leaving him behind in California with the wrong number. I thought about him often, but after my last relationship, I'd sworn off of charming, cocky, gorgeous-as-sin men. A year later, Hunter and I met again at the birth of our friends' baby. Our attraction hadn't dulled one bit. After a whirlwind trip, he demanded a real phone number this time. So I left him with my mother's—she could scare away any man with her talks of babies and marriage—and flew back home. I'd thought it was funny, until the following week when he rang the bell at Mom's house for Sunday night dinner. The crazy, gorgeous man had won over my mother and taken an eight-week assignment in my city. He proposed we spend that time screwing each other out of our systems. Eight weeks of mind-blowing sex with no strings attached? What did I have to lose? Nothing, I thought. It's just sex, not love. But you know what they say about the best laid plans...

What this book is NOT: The fear-based How-To on sex and consent, oversimplified and focused on technicalities, that represents so much of our sexual education today. What this book IS: A journey into the Big Questions that will turn you into a thinking person about sex and consent, with the ability to wrestle towards the answers that work for YOU and continue to wrestle towards them for the rest of your life. What is the meaning and purpose of sex? How does it intersect with who I am? Why are people so afraid of it? What does a healthy and joyful approach to sex look like for me? Why is consent so much more than a yes or no question? Who this book is FOR: Everybody!! No matter your sexuality, gender, religion, or race. What could be more essential?
