"Powerfully raw, deeply moving, and utterly authentic. Rachel Lloyd has turned a personal atrocity into triumph and is nothing less than a true hero.... Never again will you look at young girls on the street as one of 'those' women—you will only see little girls that are girls just like us." —Demi Moore, actress and activist With the power and verity of *First They Killed My Father* and *A Long Way Gone*, Rachel Lloyd's riveting survivor story is the true tale of her hard-won escape from the commercial sex industry and her bold founding of GEMS, New York City's Girls Education and Mentoring Service, to help countless other young girls escape "the life." Lloyd's unflinchingly honest memoir is a powerful and unforgettable story of inhuman abuse, enduring hope, and the promise of redemption.

'If you read the papers, you'd think that the only girls to get hooked are from dysfunctional families. But what happened to me could happen to anyone. Your child, your sister, your friend – even yourself if you are young and naive enough, like I was' Emma was just 13 when her happy childhood came crashing down. A nice girl from a good home, she had no idea the young lads she and her friends met every Saturday in the shopping mall weren't all they seemed. The boys were part of an organised child sexual exploitation gang targeting innocent young girls, grooming them for prostitution. Captivated by the ring leader, and the alcohol and drugs he freely handed round, Emma didn't see the first brutal rape coming. From that moment, her life was never her own. Emma found herself drawn into a trap of degradation and violence, frightened for her life and not knowing where to turn. But *Exploited* is also the story of how she found the courage and inner strength to risk everything, and escape. *Exploited* is an updated edition of Emma's book *The End of My World* - brought bang up to date with a brand new chapter.

Motherless at 10. Sexually exploited at 15. Drug dealer at 17. Gang raped at 18. Drawing herself up by her bootstraps was her only option. Kimberly Miles worked her way up the ladder of corporate sales only to discover another travesty: male supervisors stalking female underlings. Living the Me Too movement before it had a name, she was determined to do more than stand by. Now, as the owner of her own company which bills millions annually, she's set up the B.E.A.S.H.E.R.O Foundation, which seeks to help sexually-exploited teenage girls get off the streets of Las Vegas, teach them a viable skill and see they become independent members of society. Here is her story on how she went from a zero to a SHERO!

Every day in the United States, children and adolescents are victims of commercial sexual exploitation and sex trafficking. Despite the serious and long-term consequences for victims as well as their

families, communities, and society, efforts to prevent, identify, and respond to these crimes are largely under supported, inefficient, uncoordinated, and unevaluated. *Confronting Commercial Sexual Exploitation and Sex Trafficking of Minors in the United States* examines commercial sexual exploitation and sex trafficking of U.S. citizens and lawful permanent residents of the United States under age 18. According to this report, efforts to prevent, identify, and respond to these crimes require better collaborative approaches that build upon the capabilities of people and entities from a range of sectors. In addition, such efforts need to confront demand and the individuals who commit and benefit from these crimes. The report recommends increased awareness and understanding, strengthening of the law's response, strengthening of research to advance understanding and to support the development of prevention and intervention strategies, support for multi-sector and interagency collaboration, and creation of a digital information-sharing platform. A nation that is unaware of these problems or disengaged from solutions unwittingly contributes to the ongoing abuse of minors. If acted upon in a coordinated and comprehensive manner, the recommendations of *Confronting Commercial Sexual Exploitation and Sex Trafficking of Minors in the United States* can help advance and strengthen the nation's emerging efforts to prevent, identify, and respond to commercial sexual exploitation and sex trafficking of minors in the United States.

At the vulnerable age of 12, Lara McDonnell was picked out by a gang of men who befriended her, showered her with attention and gained her trust. Manipulated and groomed, her life quickly spiralled out of control as the men trafficked her around the country, deliberately keeping her compliant with drink and drugs. Deeply disturbed, and frightened about what the gang would do to her if she tried to break free, it would take over 4 years for Lara to find the strength to fight back, flee Oxford and escape her nightmare. This is her heartbreaking story.

He'd been her friend for years. He said he loved her. Then she realised she didn't know him at all...

'I was trapped. I'd been raped so many times, abused by hundreds, if not thousands. They could have left every door open and it would have made no difference. And I always came back –they always brought me back.' From the age of 14, Caitlin was controlled, raped, sold and passed on to new gangs across the UK over and over again. Her abusers were blatant in their attacks upon her, often collecting her from school or home, to be taken to flats they owned, family homes, or hotels booked for the day, to be horrifically and systematically abused. Having finally escaped, *Please, Let Me Go* is Caitlin's shocking story of abuse and survival.

The *Encyclopedia of Adolescence* breaks new ground as an important

central resource for the study of adolescence. Comprehensive in breath and textbook in depth, the Encyclopedia of Adolescence – with entries presented in easy-to-access A to Z format – serves as a reference repository of knowledge in the field as well as a frequently updated conduit of new knowledge long before such information trickles down from research to standard textbooks. By making full use of Springer's print and online flexibility, the Encyclopedia is at the forefront of efforts to advance the field by pushing and creating new boundaries and areas of study that further our understanding of adolescents and their place in society. Substantively, the Encyclopedia draws from four major areas of research relating to adolescence. The first broad area includes research relating to "Self, Identity and Development in Adolescence". This area covers research relating to identity, from early adolescence through emerging adulthood; basic aspects of development (e.g., biological, cognitive, social); and foundational developmental theories. In addition, this area focuses on various types of identity: gender, sexual, civic, moral, political, racial, spiritual, religious, and so forth. The second broad area centers on "Adolescents' Social and Personal Relationships". This area of research examines the nature and influence of a variety of important relationships, including family, peer, friends, sexual and romantic as well as significant nonparental adults. The third area examines "Adolescents in Social Institutions". This area of research centers on the influence and nature of important institutions that serve as the socializing contexts for adolescents. These major institutions include schools, religious groups, justice systems, medical fields, cultural contexts, media, legal systems, economic structures, and youth organizations. "Adolescent Mental Health" constitutes the last major area of research. This broad area of research focuses on the wide variety of human thoughts, actions, and behaviors relating to mental health, from psychopathology to thriving. Major topic examples include deviance, violence, crime, pathology (DSM), normalcy, risk, victimization, disabilities, flow, and positive youth development.

Today, two cultural forces are converging to make America's youth easy targets for sex traffickers. Younger and younger girls are engaging in adult sexual attitudes and practices, and the pressure to conform means thousands have little self-worth and are vulnerable to exploitation. At the same time, thanks to social media, texting, and chatting services, predators are able to ferret out their victims more easily than ever before. In *Walking Prey*, advocate and former victim Holly Austin Smith shows how middle class suburban communities are fast becoming the new epicenter of sex trafficking in America. Smith speaks from experience: Without consistent positive guidance or engagement, Holly was ripe for exploitation at age fourteen. A chance encounter with an older man led her to run away from home, and she soon found herself on the streets of Atlantic City. Her experience led her, two decades later, to become one of the foremost advocates for trafficking victims. Smith argues that these young women should

be treated as victims by law enforcement, but that too often the criminal justice system lacks the resources and training to prevent the vicious cycle of prostitution. This is a clarion call to take a sharp look at one of the most striking human rights abuses, and one that is going on in our own backyard.
